ERASMUS UNIVERSITY ROTTERDAM

Dear prospective student,

Thank you for your interest in our LL.M. programmes.

Erasmus School of Law offers you high quality education in an international learning environment. Our Law School applies an interdisciplinary approach that combines legal, economic, social, and political thinking.

Obtaining a LL.M. at Erasmus University Rotterdam (EUR) is the perfect boost for your career. According to the "New York Times Global Employability Survey", Erasmus University delivers the best employable alumni of all Dutch universities.

Our LL.M. programmes provide you with theoretical as well as practical knowledge necessary to operate in and to understand the global environment in which law is functioning nowadays. In addition to the regular courses many fieldtrips are organised to law firms, international courts and international companies to experience the (legal) practice: where Law meets Business.

Also excellent skills training such as contract drafting is included in our programmes. Moreover, as a student you will attend classes with people from many different legal cultures, and thus improve your international and intercultural skills.

I hope to welcome you at one of our international programmes!

Prof. Dr. Suzan Stoter LL.M.
Dean, Erasmus School of Law

ROTTERDAM

With the largest port in Europe, Rotterdam is one of the most important drivers of the Dutch economy. As a result Rotterdam today is a vibrant cosmopolitan and multicultural city that is home to over 160 nationalities and host of famous multinational enterprises like Unilever and Shell.

WHERE
LAW
MEETS
BUSINESS

Post-Graduate LL.M. Arbitration and Business Law

- Provides you with the practical and theoretical skills necessary to deal with business problems and dispute resolution (including litigation and arbitration)
- Excellent skills training (arbitration skills/contract drafting)
- Erasmus School of Law is the only faculty in the Netherlands that offers a post-graduate LL.M. specifically aimed at arbitration

Course topics include:

- Conflict of laws and International Litigation
- Fundamentals of Arbitration Law
- International and Comparative Arbitration Law
- Contract Drafting

Career prospects

Graduates are qualified to work in multinational legal environments and obtain positions as in-house legal counsel and attorney in the arbitration and litigation practice. In addition this Post-Graduate programme also prepares students to work for renowned arbitral institutions and international organisations.

Prof. Filip De Ly LL.M. (Programme Director)

"Globalization of business law requires an in-depth knowledge of the law and practice of international business. At the same time, business problems have become more and more contentious leading to proliferation of disputes often dealt with through arbitration as the preferred dispute settlement technique. The Post-Graduate LL.M. Arbitration & Business law, based on the vast knowledge and experience of ESL in the field of arbitration law, offers a unique blend of arbitration and business law courses to meet the needs of international students intending to pursue careers as attorneys or corporate counsel."

LL.M. Commercial and Company Law

- Unique combination of specialist courses in company and commercial law and general courses such as European Private International Law
- Learn about the contractual relations between companies involved in international commercial transactions
- Study in one of the leading commercial centers with Europe's biggest port and participate in company visits to see how things work in practice

Course topics include:

- Commercial Law
- Corporate Governance
- European Private International Law
- Intellectual Property Rights

Career prospects

Graduates will be well placed in law firms, law courts and in the academic and business world. Our alumni find employment in the banking and insurance sector where issues related to business companies and commercial relations are dealt with.

LL.M. Maritime and Transport Law

- Learn everything about the law and practice of the maritime and transport industry
- Study location in the largest port of Europe that enables you to learn how things work in practice
- Excellent teaching staff with a wealth of experience from the legal practice, maritime and transport industry

Course topics include:

- Law of the Ship
- Law of the Sea
- Maritime Casualties
- Marine Insurance Law

Career prospects

Graduates can work in the legal profession as an attorney active in litigation, arbitration and contract-drafting. Also positions as an in-house counsel in the legal department of banks and businesses in the maritime and transport industry are suitable for our graduates.

Wisnu Wardhana (Indonesia) LL.M. Commercial Law specialisation Commercial and Company Law

"In my opinion the LL.M. Commercial and Company Law is undoubtedly the best programme a law student can have. The courses have given me a much better understanding of the principles and application of commercial and company law, both in the EU and worldwide context. From great lecturers to fellow students with diverse backgrounds, this LL.M. offers an excellent experience of a study in the heart of the Netherlands."

Kayleigh Melsted (Iceland) LL.M. Commercial Law specialisation Maritime and Transport Law

"The specialisation in Maritime and Transport Law offers practical, relevant and high-quality education with a good mix of academic knowledge and practical skills. The professors and lecturers are very dedicated and approachable. Additionally, most courses offered us a number of valuable and beneficial company visits packed with networking opportunities and practical workshops, where we got the opportunity to solve these problems in practice. Due to the interactive setup of the master you get to know each other quickly."

LL.M. International and European Public Law

- In-depth analysis of contemporary issues in international and European public law in an interdisciplinary context
- Enables you to choose among several specialisation possibilities
- Small scale education

Career prospects

Graduates will have the skills to critically and constructively analyse contemporary issues in international and European Law. They hold positions in national administrations, international organisations (including international courts), NGOs, law firms and the academia.

Course topics include:

- Advanced Public International Law
- Advanced EU Law: Internal Market Law
- Advanced EU Law: External Relations
- Human Rights in International Law

LL.M. European Master in Law and Economics

- Makes you familiar with the economic effects of legal rules
- Provides you with an economic analysis of the most important branches of private, public and European law
- Is a joint programme that gives you the opportunity to study at two or even three European and Non-European Universities

Career prospects

The majority of the EMLE alumni are employed by law firms. In addition, our alumni work for (financial) companies, for governments, NGOs, and in academia. Finally, some of our alumni work as policy advisors or for regulatory agencies.

Course topics include:

- Economic analysis of private law (contracts, property, torts)
- Economic analysis of public law
- Economic analysis of competition law and economic regulation
- Law and finance

Redu Trifu (Romania) LL.M. International and European Public Law

"Studying at Erasmus School of Law in Rotterdam has been an extraordinary life experience. During my studies in the field of International and European Public Law I have had the pleasure to be part of a young group of intellectual people, diverse in culture and perspectives both in the field of law as well as in other areas. As a result I have honestly grown as an individual and I strongly believe that this experience has better prepared me for a professional legal career."

Ifrah Jameel (Pakistan) LL.M. European Master in Law and Economics

"I pursued the EMLE programme expecting a truly international and diverse academic experience and that was exactly what I got. The year started with an introduction of the building blocks of how economics can be integrated into the legal sphere, followed by advanced economic analysis and ending with the Masters' thesis. The highlight of the EMLE was the cultural exposure that came along with sharing this amazing year with people from diverse backgrounds and exploring Europe for the first time. To conclude: EMLE has been a thoroughly enriching experience, both personally and professionally."
