

LL.M. IN GLOBAL TECHNOLOGY

SUFFOLK UNIVERSITY LAW SCHOOL

BOSTON, MASSACHUSETTS

YOUR PASSPORT TO
INTERNATIONAL PRACTICE

A UNIQUE OPPORTUNITY TO STUDY IN
AN INNOVATIVE PROGRAM

SURROUNDED BY THE NATION'S LEADING
EXPERTS IN TECHNOLOGY AND BIOMEDICINE

ONE OF THE MOST TECHNOLOGICALLY-ADVANCED
LAW SCHOOL FACILITIES IN THE WORLD

NEXT STOP, TOMORROW

We live in an age when precedents are being cited as quickly as they are being made. Rapid advances in science and technology demand answers to legal and ethical questions never before asked. As these unprecedented innovations in technology become more complex, so does the practice of law.

The advanced technological facilities available at Suffolk University Law School, combined with the historic atmosphere of downtown Boston, provide an unparalleled setting for the graduate study of law.

Remaining competitive in this environment demands an advanced law degree.

The Master of Laws (LL.M.) in Global Technology at Suffolk University Law School offers you a vital credential to the practice of law. Our flexible curriculum allows you to design a full- or part-time course of instruction based on professional interests and personal needs. In addition, you may choose to concentrate in:

- **INTELLECTUAL PROPERTY**
- **BIOMEDICINE**
- **INFORMATION TECHNOLOGY**

This comparative and internationally-focused curriculum is as challenging as it is varied, as visionary as it is practical.

A BROAD OFFERING OF GLOBAL TECHNOLOGY COURSES

The Boston area is synonymous with excellence in the health care and biomedical research professions. It is also among the preeminent locations in the world for high technology research and production. These strengths are mirrored in the LL.M. curriculum offerings at Suffolk University Law School.

Our outstanding faculty offers a breadth of elective courses to accommodate a wide spectrum of individual interests. The result is an advanced degree that provides you with a comprehensive foundation for the future.

SURROUNDED BY TECHNOLOGY

At Suffolk University Law School, students are surrounded by the most advanced technological tools for learning. Every seat in the Law School, from the classrooms to the dining commons, is equipped with secure connections to the internet and the Law School's internal network. In addition, law professors have resources for instruction that enrich the educational experience. Instructors can utilize a network computer and document cameras to display content and to integrate video technology for playback, video conferencing, and distance learning applications.

Students must complete 24 course credits. Classes are held in the afternoons and evenings for flexibility. This is a representative list. For a complete listing of the courses currently offered, please visit www.law.suffolk.edu.

GLOBAL DIMENSIONS

The LL.M. in Global Technology at Suffolk University Law School is more than innovative courses and talented faculty. Particular international opportunities provide our students experiences upon which to build.

INTERNSHIPS

The future practice of law demands a world-view and cross-cultural perspective. Internships provide students with a practical understanding of the practice of global technology law.

The resources of Suffolk University Law School's comprehensive internship program translate into a broad range of rewarding experiences for program participants. Public and private organizations here and abroad offer internships in specialized areas, including biotechnology, informational technology, intellectual property, e-commerce law and internet law.

JOURNAL OF HIGH TECHNOLOGY LAW

The Law School's newest Honor Board, the *Journal of High Technology Law* (JHTL), is an ideal venue for students to publish on topics ranging from intellectual property matters to communications and media, computer law, and internet issues. The *Journal* is published entirely online at www.jhtl.org. The website is a legal information resource providing extensive links to information available online in the various high technology fields.

COLLABORATION WITH UNIVERSITY OF LUND, SWEDEN

Scandinavia is among the most progressive regions in the world for high technology research and development. With a rich legacy of excellence that dates to its founding in 1666, University of Lund, located in southern Sweden, is surrounded by the pharmaceutical, telecommunications, and biotechnology leaders of northern Europe. The University of Lund represents an ideal, international strategic partner for the LL.M. in Global Technology. This association includes:

- **STUDY ABROAD** program each summer at University of Lund.
- **VISITING SCHOLARS, EXCHANGE PROGRAMS, AND GUEST LECTURES** in biotechnology, intellectual property and information technology, from European and American business leaders and policy makers.
- **JOINT SEMINARS** conducted by U.S. and European professors and expert international lawyers with Suffolk University Law School faculty.
- **OPPORTUNITIES** to study in University of Lund's LL.M. degree programs in European Affairs and in Intellectual Property and Human Rights in conjunction with the University's Raoul Wallenberg Institute for International Human Rights.

A FACULTY OF TALENT AND EXPERTISE

Our distinguished faculty bring outstanding achievements in scholarship and teaching to the LL.M. program. Complementing the resident faculty, our adjunct faculty include Boston's leading specialists in law and technology.

SUFFOLK UNIVERSITY LAW SCHOOL

Located in the legal and business center of Boston, Massachusetts, Suffolk University Law School was founded in 1906 and has grown to be one of the largest law schools in the country. The newly-built Sargent Hall was dedicated in 1999, and is the most technologically-advanced law school of its kind, exemplified by the availability of Internet access at every seat in the classrooms, library, dining room, and common areas. The core curriculum provides a strong legal foundation for more than 200 upper-level elective courses, as well as four specialty concentrations in the JD program and five joint-degree programs that combine law with business, public administration, international economics, finance and criminal justice.
