Course objectives:

The course concentrates on the Community secondary acts adopted within the framework of judicial cooperation of the Member States in the civil matters, specifically those dealing with institutions of procedural civil law. The students familiarize with the content, relevant jurisprudence of European courts and impact of these acts in the national domain. The course will also cover the concrete procedure of the acts' application, including the introduction to the content of key forms, as well as the selected relevant information servers.

The subject innovation has been supported by the project Support of Interdisciplinary studies and Study Programmes Innovations at Palacký University in Olomouc, CZ.1.07/2.2.00/28.0091.

Requirements on student

The course is concluded by an exam in written form. To pass the exam the students must have active participation within the scope set by the seminar teacher and they also must succeed in the final exam.

The student is required to work with the learning objects, which have been created for the concrete subject and are available for authorized students in LMS EDIS.
